- English (Fluent)
- Tamil(Fluent)
- French(Basics)
- Hindi(Basics)

ACHIEVEMENTS

- 2nd Place in Gen-AI UI/UX Hackathon
- 2nd Place in Glitchcon Hackathon

PROFILE

I am Shiny, a second-year B.Tech student in Computer Science and Engineering (Data Science) at VIT. I'm passionate about coding and designing cool websites that can truly make a difference—even for the top 1%. I love designing and creating things that blend functionality with aesthetic appeal. With a growing background in front-end development, and competitive programming. I thrive on problem-solving, creative thinking, and collaborative teamwork. I am eager to expand my skill set in advanced web development, UI/UX design, and software engineering through hands-on projects and internships.

WORK EXPERIENCE

Designer, AATM Club — 2024--PRESENT

- Design posters, flyers, and social media graphics to promote club events.

Competitive Programmer, CodeChef Club — 2024--PRESENT

- Participate in weekly problem-solving sessions to improve algorithmic thinking.
- Contribute to club workshops by sharing best practices and strategies.

Event Manager, Seraphic Club — 2023-PRESENT

- Lead teams of volunteers to ensure successful event execution.

Content Writer, ACM Club — 2023-PRESENT

- Collaborate with club members to produce high-quality and informative content.
- Expand club outreach by optimizing content for social media platforms.
